ThumbSaver

Never Hit Your **Thumb** Again!

Strong magnet holds a Nail, Staple, Screw, almost any fastener!

Be nice to your thumbs!

This ingenious tool designed and tested by real tradesmen lends a helping hand when driving nails, screws, fence staples, or just about any fastener.

You can use your Thumbsaver on nearly any job from fine trim or craft work to the largest framing jobs, building fences, decks or installing joist hangers.

Easy to use!

A strong magnet is machined into the durable ergonomically designed aluminum shaft and finished off with a comfort grip. Just pull the tool out of your pack or tool belt, pick-up a fastener with the magnet and drive the nail or screw! Once you use it you will know why it is called the ThumbSaver!

A serious tool for so many uses

Safety, Speed, and Convenience!
Your friends will want one too.
